

The voice of our stakeholders

Cristal Skaling-Klopstock, from EUROCAM in Belgium, has seen first-hand the powerful impact of SHIFT-HUB's activities on her work and organization.

Among the wide portfolio of services provided by SHIFT-HUB, *Demo Days and Capacity Building Workshops* stood out as the most valuable services to her. She emphasizes,

the SHIFT-HUB project has assisted us in identifying new processes for undertaking research projects and creating community hubs.

Moreover, it helped uncover new ways of funding and reducing research costs.

Thanks to SHIFT-HUB, Cristal has built valuable new connections for co-creating future projects and developed impactful strategies to enhance community engagement, helping drive progress in meaningful ways.

EUROCAM is the European foundation uniting umbrella organisations of patients, physicians, practitioners, and veterinarians in the Traditional, Complementary, and Integrative Healthcare (TCIH) sector.

Its objective is to promote and facilitate TCIH's role in enhancing and maintaining citizens' health, highlighting health promotion and TCIH's contribution to preventative healthcare.
